Profile

Refusal to inaction is a personal mantra. I desperately absorb knowledge in my specialization as well as exploring more new skills. Currently, I'm looking for an opportunity to gain some experience in WebDevelopment

Experience

IELTS trainer · Albus Academy

August 2021 - January 2022

Part-time job as an IELTS trainer. Completed the entire course with 10+ students working only individually. The students were mostly adults aged between 18 and 33.

- Developed individual lesson plans based on the course.
- Analyzed the main methods of preparation and selected them separately for each student.
- Conducted trial lessons for new students with an assessment of the students' level of knowledge.

Education

IITU (International Information Technology University)

2020 - 2024 · Bachelor's degree

Faculty of Information Technology

Speciality: Software Engineering

Activities: Head of "ITFM" Student Radio club

Nazarbaev Intellectual Schools of Ph&M Astana

2014-2020 · High School diploma

GPA: 3.9/4

Recent Projects

Plannet Startup

[Project Link](#) ↗

Mobile Application · Social Network

The application was designed as a social platform with productivity tools. Contains planning, making challenges, tracking the performance and some more tools. The team consists of me (CEO, Front-End mobile developer) and two friends of mine (Back-End developer and UI/UX designer)

The project was launched during the participation in business incubator program at Innovation Center of IITU and is still actively being supported by the university.
